## Back to School, Back to Planning

The kids are heading back to school, routines are starting again, and the house may finally feel a little quieter.

That makes August a great time to start thinking about your home. Whether you have been dreaming of a kitchen refresh, a bathroom update, better storage, or a full remodel, now is the time to begin the planning process.

Remodeling takes time for design, selections, ordering, scheduling, and construction. Starting early helps make the process feel smoother and less rushed.

### Why Start Now?

- Fall and winter schedules fill quickly
- Selections and materials take time
- Planning early gives you more options
- You can make decisions with less pressure
- Your home can be ready for the seasons ahead

If a remodel has been on your mind, August is the perfect time to take the first step!

# Project Spotlight

## The J's Master Bath Remodel in Windsor

This month, we are spotlighting a beautiful master bathroom remodel we recently completed for the J's in Windsor, Colorado.

Their bathroom received a fresh, updated look with improved style, comfort, and function.

### Project Updates Included:

- New cabinetry
- New countertops
- Beautiful new Shower and faucet fixtures
- New updated flooring
- Converted a cramped steam shower to a new large custom glass shower door
- A refreshed layout (removing a large unused jetted tub and raised ceiling in the shower)
- Custom detailed tile work

The new glass shower door, expanded opening and raised ceiling brought an open, clean, modern feel to the space while making the bathroom feel bigger, comfortable, and enjoyable to use every day.

We took out an unused jetted tub and created a built-in seating space for our clients to dry their toes and put their shoes on in the morning to get ready for the day. This space also adds functional storage while looking beautifully integrated into the design. Matching countertops tie the entire space together, including the matching bench and niche shelf in the shower.

From the cabinets and countertops to the fixtures and flooring, each update helped create a more polished, cohesive, and inviting master bathroom.

We love helping homeowners turn everyday spaces into rooms that feel beautiful, fresh, functional, and personal.

### Instructions:

White page for easy printing!

1. Mix starter and warm water in a large bowl.
2. Add flour and salt. Stir until a shaggy dough forms.
3. Cover and let rest for 30 minutes.
4. Stretch and fold the dough a few times over the next 2 hours.
5. Cover and let rise until doubled.
6. Shape into a loaf and place in a floured bowl or basket.
7. Let rise again until puffy.
8. Bake in a covered Dutch oven at 450°F for 25 minutes.
9. Remove lid and bake 15–20 minutes more, until golden.

**Let the bread cool before slicing. Enjoy with butter, jam, soup, or your favorite dinner.**
